

How to mount an USB Pen Drive/Hard Disk ?

Attach your USB pendrive to Linux computer.

```
#dmesg
{Check the last lines. It will show the device name used by pendrive for example
/dev/sda1 or /dev/sdb1)
#mkdir /pendrive
#mount /dev/sdb1 /pendrive
```

How to unmount & remove an USB Pen Drive/Hard Disk from Linux System?

```
#unmount /pendrive
# eject /dev/sdb1      à {Pendrive will stop blinking. Now
                        remove it}
```
