

Paper ID	Title	Primary Contact Author
4	Effect of irrelevant category information on learning of spatial sequences	Miyapuram, Krishna
5	Eye movement patterns in the developmental perspective: comparing two distinct orthographies English and Kannada	PANDEY, APARNA
8	Relationship between ranking and planning of eye movements	Ray, Supriya
9	Speech-mediated eye gaze in Urdu: Time course of phonological and morphological activations	Rizwana, Azeez
10	Effects of Response Stimulus Interval on Learning in Serial Reaction Time Task	Miyapuram, Krishna
11	Eye-Gaze Fixations of Individuals with and without Intellectual Disability on Identity Matching Task	Haider, Sabah
15	Influence of the eye's optics on binocular visual functions – lessons from patient's undergoing corneal transplantation	Bharadwaj, Shrikant
17	Effect of Dichotic listening on delayed auditory feedback in persons with and without stuttering	Y V, Geetha
20	Mild Cognitive Impairment: Can F-18 Fluorodeoxyglucose (FDG) Positron Emission Tomography/Computed tomography (PET/CT) predict converters to Alzheimers dementia.	Tripathi, Madhavi
22	CS-sLORETA: A localization tool for brain electromagnetic activity	JAISWAL, AMIT
23	Spatial working memory does not interfere with probabilistic cued attention in visual search tasks	JAGINI, KISHORE KUMAR
32	Processing of Syntactic Dependencies in Malayalam Relative Constructions	Kishore, Kiran
33	Spatiotemporal structure of oscillatory cortical activity underlying multisensory speech perception	Kumar, Vinodh
38	EFFECTS OF NORMAL AGING ON ONLINE AND OFFLINE BIMANUAL MOTOR SEQUENCE LEARNING	Gharpure, Sampada
40	ADAPTIVE RELIANCE ON THE MOST STABLE SENSORY PREDICTIONS ENHANCES THE ACCURACY OF PERCEPTUAL DECISIONS	Kumar, Neeraj
42	Attention and Prediction Interactions on Time Perception	Warda, Shamini
44	A SEARCH FOR COMMUNITY SPECIFICITY IN LANGUAGE AND VISUAL PERCEPTION	Bhattacharyya, Srimoyi
46	EFFECT OF CHRONOTYPE ON COGNITIVE AND AFFECTIVE PERFORMANCE, WELL BEING AND STRESS AMONG MEDICAL PROFESSIONALS	BHATTACHARYA, OINDRILA
47	Can people perceive rate of alternation in binary choice tasks?	Pamnani, Ujjval
48	Unpredicted Onset Leads to Event Binding	George, Nithin
49	Multi-class pattern classification of EEG signals for brain-computer interface implementation	KRISHNA, HARI
50	PACED RESPIRATORY EXERCISE ENHANCES RETENTION OF MOTOR SKILLS	Yadav, Goldy
51	Affective valence influences vigilance task performance	PRATAP, SUJEET
55	Adaptive binding in visual system	Shukla, Anuj
56	Feasibility study of Oculus Rift device in visual search experiments.	Nair, Vipul
57	Temporal oddball and auditory p300 based BCI	Danam, Vamshi Sarath
63	Effect of Group membership on time perception	MAKWANA, MUKESH
67	Role of attentional window and perceptual load in visual search task	Singh, Divita

69	60 YEARS OF COGNITIVE NEUROSCIENCE RESEARCH: TRACKING CHANGES THROUGH DATA MINING	Mutha, Pratik
72	Indian mothers' naming to children: Adaptations of a dynamic and interactive mother–infant communicative system	Maganti, Madhavi Latha
74	Evolution of Cooperation with reputation and payoff values	Battu, Balaraju
77	Free Riders in a Public Goods Game for Climate Change	Kumar, Medha
