

Curriculum Vitae

Surender Baswana

Professor
Department of Computer Science & Engineering,
Indian Institute of Technology Kanpur,
Kanpur - 208016, U.P., INDIA.
+91-512-259-6074
Fax +91-512-259-0725

Email: sbaswana AT cse.iitk.ac.in
Web: <http://www.cse.iitk.ac.in/~sbaswana>

Research Interest

Design and analysis of computer algorithms, especially, Graph algorithms, Dynamic algorithms, Streaming algorithms, Randomized algorithms.

Education

Degree	Institute	Department	Year
Bachelor of Technology	Indian Institute of Technology Delhi	Comp. Sc. and Engg.	1997
Master of Technology	Indian Institute of Technology Delhi	Comp. Sc. and Engg.	1999
PhD	Indian Institute of Technology Delhi	Comp. Sc. and Engg.	2005

Important Note: PhD thesis was submitted in October 2003, but the thesis defence could be held in July 2005 due to delay in the reports of the examiners. So the PhD degree could be awarded only in August 2005.

Employment

Professor (August 2016 - onwards) Deptt. of Comp. Sc. & Engg., I.I.T. Kanpur.
Associate Professor (December 2010 - July 2016) Deptt. of Comp. Sc. & Engg., I.I.T. Kanpur.
Assistant Professor (July 2006-November 2010) Deptt. of Comp. Sc. & Engg., I.I.T. Kanpur.
Postdoctoral Researcher (October 2003- June 2006)
Max. Planck Institute of Computer Science
Algorithms & Complexity group,
Saarbruecken, Germany.

Refereed Journal Articles

PhD supervision

1. Manoj Gupta [2009 - 2014] (jointly supervised by me and Prof. Sandeep Sen at IIT Delhi)
Currently Assistant Professor at IIT Gandhinagar.
2. Keerti Choudhary [2013 - 2017]
She submitted her thesis in February 2017 and is going to join as a Postdoctoral Researcher at Weizmann Institute of Science in Israel.
3. Shahbaz Khan [2013 - 2017]
He is going to submit his thesis by June 2017 and is going to join as a Postdoctoral researcher at University of Vienna, Austria.

MTech supervision A total of 16 MTech thesis have been supervised.

Sponsored Projects

1. Title of the project: Dynamic Graph Algorithms
Duration: October 2014-September 2017
Sponsors: University Grants Commission (UGC) of India and Israel Science Foundation
Funding Amount: INR 38,40,000. (Approx. 60,000 US Dollars)

Professional Services

- *Joint Seat Allocation for Centrally Funded Technical Institutes*

Until 2014, the admissions to the Indian Institutes of Technology (IITs) were conducted under one umbrella, whereas the admissions to the non-IIT Central Government Funded Technical Institutes (GFTIs) were conducted under a separate umbrella by the Central Seat Allocation Board (CSAB). The same candidates were eligible to apply for a seat in each of the two sets of institutes, and several hundred candidates would indeed receive two seats each. Each such candidate could use at most one of the seats, leaving a vacancy in the other seat, which would be noticed much later, in many cases after classes begin. Such seats would either remain vacant or would be reallocated at a later stage, leading to inefficiency in seat allocation in the form of unnecessary vacancies, and also misallocation of seats (e.g. a particular CSAB seat could later be offered during a spot round to a candidate A with a worse rank, which was previously denied to a candidate B with better rank, who meanwhile took up some IIT seat).

Since 2015, a new combined seat allocation process has been implemented to resolve this issue. The process brought all Government Funded Technical Institutes under one umbrella for admissions. Each candidate submitted a single preference/choice list over all available programs, and received no more than a single seat from the system, based on their choices and their ranks in the relevant merit lists. At the core of this seat allocation process lies the stable-marriage algorithm invented by Gale and Shapley in 1962. A technical committee was constituted with the objective to adapt this algorithm to various business rules of admissions in these institutes and to engineer it to handle many practical challenges. Some of these business rules were quite non-trivial from algorithmic perspective. The committee, headed by Prof. P. P. Chakrabarti (Director, IIT Kharagpur), consisted of Surender Baswana (IIT Kanpur), Sharat Chandran (IIT Bombay), Yashodhan Kanoria (Columbia Business School).

Transforming the algorithm into a software was also challenging. There was no scope of an error since even a single wrong allocation of seat could be catastrophic the future of thousands of candidates was at a stake. Considering the criticality of the task, for the last 2 years, the joint seat allocation is being carried out using two softwares designed independently by IITK and NIC. The IITK software has proved to be indispensable on various occasions during the joint seat allocation period in the last 2 years. Moreover, the IITK software is faster than the NIC software by more than 10 times and this factor may prove to be very crucial especially when there are only few hours left to compute seat allocation for a round. The IITK software development originally started as a B.Tech project by two students Utkarsh Patange and Ashok Kumar under the guidance of Surender Baswana. It was later extended to a complete working software during the summer of 2015 by Utkarsh Patange under the guidance of Surender Baswana.

The joint seat allocation led to a huge reduction in the vacancies in IITs in the last 2 years even though 6 new IITs were opened during these years. See Table 1.

Year	Number of IITs	Vacancies
2014	16	587
2015	18	307
2016	22	195

Table 1: The vacancies in IITs in the last 3 years

Moreover, in order to fill the vacancies in CSAB institutes after the joint seat allocation, a centralized special round is designed that offers a fair allocation and avoids hassles of a spot round. Experiments revealed that, in addition to the reduction in the vacancies, at least 3500 candidates got better programs due to the joint seat allocation in the last 2 years.

- *Chair (Local Organization) CALDAM 2015*
Served as a Chair of the Local Organization for the 1st International Conference on Algorithms and Discrete Applied Mathematics held at IIT Kanpur from 8th February to 10th February, 2015.
- *Programme Committee member FSTTCS 2012*
Served as a PC member for 32nd Conference on Foundations of Software Technology and Theoretical Computer Science (FSTTCS) to be held from December 15-17, 2012 at Hyderabad, India.
- *Programme Committee member ICALP 2005*
Served as a PC member (Algorithms track) for 32nd International Colloquium on Automata, Languages and Programming (ICALP) held on July 11-15, 2005 at Lisboa, Portugal.

Awards and Achievements

Research:

- Received certificate of exceptional contribution towards the development of the software for the joint seat allocation for IITs, ISM, NITs, IIITs, and other-GFTIs.
- *Young Engineer Award*
Received Young Engineer Award from Indian National Academy of Engineering for the year 2009.
- *Research I Fellow*
Received Research I Fellowship for years 2007-2010 by Research I Foundation, Department of Computer Science and Engineering, IIT Kanpur.
- *Outstanding Ph.D. Dissertation Award*
Received Outstanding Ph.D. Dissertation Award by IBM India Research Lab in 2005.
- *Award for commendable research*
Received award for commendable research work in Inter Research Institute Students Seminar (IRISS) held in I.I.T. Delhi, March 28-29, 2003.

Teaching :

- *Gopal Das Bhandari Memorial Distinguished Teacher award* by the graduating batch of the year 2010 across all disciplines in IIT Kanpur.
- *Best Faculty Award* by the graduating batch of the Department of Comp. Sc. & Engg., IIT Kanpur for the years 2010, 2011, 2012, 2013, 2015, and 2017.
- Received letter of appreciation from Director IIT Kanpur for extra ordinary performance as an instructor in all but two courses taught as a single instructor at IIT Kanpur. The evaluation of a course is based on the students reaction survey conducted at the end of the course. An instructor receives the letter of appreciation from the Director if he/she receives at least 3.5/4 points in the survey for the course.

Personal Data

Date of Birth : August 26, 1974

Nationality : Indian

Sex : Male

Marital Status : Married
